Box Beams/Beam Wraps

Hand Hewn Carolina Rustic

PRODUCT SPECIFICATION SHEET

Description:	<p>Hand Hewn Beam Wraps connect us to a time when our relationship with nature was meticulously crafted. Before there were saws large or powerful enough to cut and shape big timbers, farmers and craftsmen took on the laborious task of shaping them by hand using a broad axe and adze. The cut marks we see today are the original markings created by these hand tools.</p> <p>A Hand Hewn Beam Wrap/Box Beam offers the aesthetics of this old world craftsmanship along with the advantages of a hollow beam, to ensure that overall installations are much easier.</p> <ul style="list-style-type: none"> • Provides lightweight, easy to install, Decorative Exposed Beams • Hides utilities such as duct work, plumbing & wiring • Wraps existing steel, wood or laminated construction components <p>Please note: Box Beams & Beam Wraps are not intended for structural applications.</p>

Webpage:	<p>https://www.wholeloglumber.com/reclaimed-beams-timbers/</p>	
Origin	<p>All our lumber is reclaimed from Eastern United States old barns, homes & factories that are generally 100+ years old.</p>	
Disclaimer	<p>Each reclaimed wood board is one-of-a-kind and can possess some or all of the aged characteristics. Variation is to be expected.</p>	
Limitations	<p>While reclaimed wood generally has denser grain structure when compared to new wood products, it does contain checks, marks, knotholes, nail holes and color variations, as well as slight variations in thickness typical of antique lumber. Please allow for these natural variations when designing the application.</p>
